A TROLL LEARNING CENTER

It's fun to go shopping when you do it right! This colorful program offers a unique opportunity for youngsters to make shopping decisions and handle money.

Three different shopping locations are available: a carnival, a pet shop, and a magic store. In each location, simulation-like activities involve children in tallying their purchases, deciding how to pay for them, and figuring their change. Other concepts covered include price increases, comparison shopping, and using discount coupons.

THIS LEARNING CENTER CONTAINS:

- a MICRO-SOFTWARE program disk
- a User's Guide
